5. Student Support and Progression

5.1 Contribution of IQAC in enhancing awareness about Student Support Services

- IQAC is striving to activate several University systems to enhance the facilities meant for the main stake holders- the students.
- The Library, ICT wing, students welfare sections have been requested to be vigilant and active to ensure a student friendly environment in the teaching and learning process.
- Departments have been requested to initiate sensitising programmes for students on various facilities available in the University including sports, cultural and other extra-curricular activities.
- An international student's centre has been established to take care of international students.
- A bridge course was organised to create awareness about the student supporting services in the University.

5.2 Efforts made by the institution for tracking the progression

Mentoring is done through counselling and remedial programmes for students at individual as well as group levels. Generally, the faculty individually or in a group mentor and support the students according to their need. When found inadequate, appropriate actions are initiated to rectify weak areas. The assessment of teachers, department and infrastructure available to students would further help the University to track the progressions.

- Lecture on Organic Farming and in situ Conservation of Seed Diversity on 21-22 December 2014 by Ministry of Environment, Forests and Climate Change - Govt. of India and Karnataka Rajya Vijnana Parishat.
- Creation of central facilities such as CARER, CARRT, PURSE etc. to augment the research programmes in the University.
- ICT has been introduced in teaching.
- Organised national and international conference for the benefit of students/researchers.
- Appointment of eminent scholars as adjunct faculty in different departments.
- Research and Consultancy Promotion Committee (RCPC) was established to promote research and consultancy services in the University.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

- Wi-Fi facility in the entire campus.
- Village adoption.
- E-governance to facilitate the speedy administration.
- The activities are held as per the academic calendar drawn at the beginning of the academic year
- The syllabi were revised in some disciplines depending upon the need.
- Training of the supporting staff.
- Developmental activities such as infrastructure, upgradation of laboratories and sports facilities were accomplished as planned.

Title of the Practice 1:

1. Statistics clinic– Integral part of research curriculum

Objectives

1. To adopt a scientific approach to study any problem.
2. To develop analytical skills for collection, experimentation and analysis of data.
3. To learn to prepare a scientific report.

Context

At the research level, not all the students are exposed to statistical methods to be adopted in their research programmes. Majority of the students select the topics at random without going into the details of methodology involved in research. Therefore, it is always advised to consult a statistician to design the sample/volume and sampling methods before proceeding for the collection of data/sample. The interpretation of gathered data in the absence of suitable statistical treatment may lead to improper conclusions. Therefore, exposure of researchers to basics of statistics and use of statistical packages knowledge becomes essential and forms the integral part of research.

The Practice

- a) Preliminary preparatory work: A co-ordinator was appointed by the University to organize a workshop for the benefit of research scholars of all the disciplines of the University. A circular was sent to all the departments regarding the date of commencement of the course, duration, course content with an intimation to the Registrar.
- b) Conduct of the course: General topics such as: qualities of researcher, selecting a research problem, collection of literature in the chosen topic etc. were dealt in common to the researchers of all the disciplines.
- c) The research design, hypothesis, methods of research, sample size determination, collection and presentation of data, analysis and interpretation of the obtained data were also discussed in common. The use of statistical packages were discussed for the benefit of the researchers belonging to science and humanities groups separately.
- d) The computation and statistical methods discussed were: Determination of sample size, different sampling methods, testing. The independence of attributes, use of SPSS.

Evidence of success

An enhance in the confidence level of the students was noticed after the workshop in designing methodology, collection of data, particularly in employing sampling methods. The participation in the workshop made them to survey the literature and the presentation of the data in a scientific manner.

The feedback collected from the researchers at the end of the workshop, revealed the importance of learning statistics/computer and their application in designing the research proposal.

Problems Encountered and Resources Required

There was an initial fear in learning the statistics particularly, by the students of humanities. However, they were able to overcome the fear when they were exposed to simple methods of learning and applying statistics and computer in their research. The students were often assisted by the faculty members in designing their research problems.

Title of the Practice 2:

Best Practices for Activation and Outreach -Sports programmes

Objectives

- Sports have a profound impact on individuals, the institution as a whole, as well as the community.
- Sports are a powerful and transcendent. It can bridge gaps, bring people with relatively nothing in common together, and gives many participants unbelievable, life-altering opportunities.
- Highly structured sports programmes, deliberate practice devoted to sports-specific skill development.

Context

Sports programmes of Mangalore University is committed to the holistic development of youth through and in sport, by focusing on the meaningful relationships, activities and settings that enrich the personal assets of each young sports persons across the entire individualized athletic development pathway. Through collaborative skill training, distinctive services and programs, our evidence-informed and sports person-centered focus will help each sports person to develop character, competencies in sport and life, confidence and meaningful connections with adults and peers, while establishing a foundation for personal development and long-term enjoyable participation and achievement in sport. We encourage all sports organizations, programs, parents and other stakeholders to embrace and promote, sustainable, healthy, safe and enjoyable sports participation and optimal athletic performance and achievement.

The practice

1. Mangalore University proposes to award sport talent scholarship to degree students of Mangalore University. The scholarship amount shall be rupees one thousand five hundred per month.
2. University sponsorship for Sports Excellence is a special sponsorship reserved for outstanding talents who could bring laurels to the University, state, and the nation by way of participating in international

events.

3. One seat is reserved under each faculty in the University teaching departments and PG courses in affiliated colleges for Mangalore University sports persons with outstanding achievements.
4. Specified Mangalore University Inter-collegiate tournaments would be organized in two rounds namely preliminary and championship round.
5. Mangalore University will roll out affirmative programmes for differently abled persons to enable them to take to sports with confidence, realize their potential without inhibition and rise to the glory they are capable of.
6. We have a vast array of indigenous games which are integral to the cultural inheritance of Mangalore University area. It is to secure recognition for indigenous/traditional games in which we have a natural cultural advantage, and which advance community pride and self –confidence.

Evidence of success

- Increasing student's knowledge in sports and refining their leadership skills.
- Mangalore University has won several medals in inter University competitions.
- Our Inter-collegiate sports program is one of the best, in the state. As an example, in 2014-15 alone, participation of students has increased because of new system called preliminary and championship round.
- Scholarships introduced in Mangalore University helped sports persons to use advanced technology for better performance in sports.
- It changes practices and college culture for the better;
- It improves student attendance and parent participation.
- It reduces the need for disciplinary actions.

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

Strengths:

- The University is Accredited with 'A' Grade by NAAC
- Excellent research facilities developed through funding from, DST- PURSE, DST-FIST, UGC-SAP, DAE-BRNS, BRIT, DOD, etc.
- Exposure of faculties to international laboratories/research centres through various international fellowships and MOU's
- Well developed, spacious library with ICT, e-resources facilities, Computer centre with mail, web and applications servers
- Sports facilities like gymnasium, indoor stadium, play grounds, outdoor stadium with 400 metres track are available. Facilities are also available for other extra-curricular activities.
- Centre for distance education to provide higher educational facilities for the needy people.
- Training of SC/ST/OBC students for competitive examinations, such as UGC/CSIR/IAS/IPS/ICAS, etc.
- Prasaranga, Study Centres and Peetas are engaged in spreading the knowledge to the society and researching on the issues/problems related to women, weaker sections of the society, environmental awareness, banking, yoga, ayurveda, painting and culture.
- Extension of consultancy services.
- Promptness in administrative procedures.
- Research and Consultancy Promotion Committee (RCPC) was established to promote research and consultancy services in the University.

Weaknesses:

1. Physical infrastructure and human resources.
2. University is situated in a rural area.
3. Limited funds for cutting edge research.
4. Limited inter-disciplinary/multi-disciplinary approaches
5. Inadequacy of infrastructural facilities to introduce new academic programs.

Opportunities:

1. The University has already initiated industry interactions for the academic programs and placements which is helpful in developing the partnership with industries
2. Syllabi of many courses are framed in consultation with industries which provide job opportunities to our students.
3. University with its National facilities for research can be extended to other institutions and Universities in order to generate funds to the University.

4. Various collaborative research programs, Faculty exchange programs with foreign Universities will be helpful in facilitating high end research activities. This makes a provision for sharing of intellectual properties.
5. Exploitation of research potentials to generate revenues in the form of strategic consultancy.
6. Increase the access by strengthening distance education programme and adoption of information and communication technologies more effectively.
7. The location of the University in the foot hills of the Western Ghats and Coastal Region will be a great opportunity to research on Biodiversity and Conservation.
8. The scope for extending the consultancy services.
9. Faculty exposure to international laboratories/institutions will be useful to take up high end research and teaching.
10. Enhancement of equity initiatives.

Threats:

- Increased competition due to establishment of private and public Universities around the campus.
- Limited financial support from the state government.
- Increased privatization of higher education
- Inadequate amenities for marginalized section to increase the enrolment.
- Entry of foreign Universities of higher education.

Specific Objectives and expected results of the University Proposal:

Objective	Results
To increase the potentiality of the institution towards excellence	Increased ability of the University to compete with institutions of excellence at the global level.
To enhance quality of teaching-learning	Enhanced quality of teaching-learning process.
Socio-economically backward, SC/ST/OBC community people	Increased access of socio-economically backward, SC/ST/OBC community people to higher education.
Enrolment of students	More number of students will get the opportunity for higher studies.
To improve the ability of the scholars	Motivation of the scholars to undertake cutting edge research in the University.
Employability of the students	Enhancement in the employability of students through value added education.
To enhance the infrastructure facilities- academic/administration/research	Enhanced facility will help attracting quality studies to take up cutting edge research.
Consultancy activities	Enhanced consultancy activities to generate more revenues to the University.

8. Plans of institution for next year:

- Syllabus revision.
- Holding national workshop and conference.
- Students visit to industries/organizations.
- Special lectures by Adjunct Faculties.
- Inter, intra and multi-disciplinary research.
- Building infrastructure to carry out advanced research in emerging areas.
- Implementation of SAP programme.
- Installation of additional research facilities.
- Installation of information kiosk in administrative and faculty building.
- Guest house upgradation.
- Renovation of International guest house.
- Renovating electronic and USIC building.
