

MANGALORE UNIVERSITY

Research Centers and Central Facilities

Mangalagangothri-574199
Karnataka, India

Centre for Advanced Research in Environmental Radioactivity (CARER)

The Centre for Advanced Research in Environmental Radioactivity (CARER) was established as CARER in 2015 through the Board of Research in Nuclear Sciences (BRNS) funding. This center has been accredited by the Atomic Energy Regulatory Board (AERB). The center has excellent infrastructure facility of international standard and has the capability to measure radionuclides of interest in the entire nuclear fuel cycle. It has been developed as a national facility with users from over 60 institutions both within the country and abroad.

For more information please visit:

www.mangaloreuniversity.ac.in/carere

Microtron Centre

The Microtron Centre was set up in the year 1995 in collaboration with RRCAT Indore and BARC Mumbai with the prime objective of carrying out frontline research studies in Radiation Physics and allied sciences. The centre, with its 8 MeV Microtron and necessary research infrastructure plays an important role in the coordinated multidisciplinary research programmes with the various science departments of the university, sister universities, national laboratories, and neighboring institutions. The Board of Research in Nuclear Sciences (BRNS), Department of Atomic Energy, Govt. of India has been very supportive to the Microtron Centre in its research activities in different areas of Science and Technology. More than 100 research scholars of different disciplines have successfully used the Microtron Centre facility to complete their PhD work so far.

For more information please visit:

<https://mangaloreuniversity.ac.in/microtron-centre>

Centre for Application of Radioisotopes and Radiation Technology (CARRT)

The Centre for Application of Radioisotopes and Radiation Technology was established in 2010 in collaboration with the Board of Research in Isotope Technology (BRIT), Mumbai and the Board of Research in Nuclear Sciences (BRNS). It has developed in to one of the facilities, which caters to the needs of the researchers working in the field of applications of radioisotopes. It provides facilities like gamma irradiators (high dose irradiator and blood irradiator), radioisotopes labelling laboratory, radioimmunoassay (RIA) laboratory, radioiodination laboratory, hybridoma laboratory, instrumentation/counting laboratory, liquid scintillation counter, radio thin layer chromatographic system, radioimmunoassay counting system, thermoluminescent dosimeter reader, UV-Visible spectrophotometer, CO₂ incubator, etc.

For more information please visit:

<https://mangaloreuniversity.ac.in/carrrt>

Promotion of University Research and Scientific Excellence (PURSE)

This centre was established in 2012 under the Promotion of University Research and Scientific Excellence (PURSE) programme of the Department of Science and Technology (DST), Govt. of India. Advanced research facilities, such as, FESEM, Single Crystal XRD, DSC-TGA, LCMS, Liquid Nitrogen Plant, and Sputtering Unit are available in this centre. Faculty and research scholars actively use these facilities.

For more information please visit:

<https://mangaloreuniversity.ac.in/about>

Central Facilities - University Library

The Mangalore University Library (MUL) came into existence in 1980. This centrally located magnificent MUL building with an area of 6750 sq. m provides a pleasant atmosphere for serious reading and research. More than 2 lakh print documents on different subjects have been collected over the years. The library provides access to 8,500+ peer reviewed full text E- Journals of more than 25 internationally well-known publishers like Elsevier, Springer, Wiley, T & F, OUP, CUP, ACS, RSC, Nature Publishing, and more than 10 bibliographic, citation, and aggregator databases as a member of UGC INFLIBNET E-Journals Consortia. The library portal also facilitates access to an exhaustive Discovery Tool J-Gate Plus covering more than 44,500 E-Journals, Sage Journals, OA Journals, and other kind of documents like E-theses, E-books, etc. Prominent services include documents lending, Web-Opac, CDs and DVDs, Photo copy, Internet, Multimedia, UGC INFONET Databases, Reprints, Inter Library Loan, Referral and Reference, Reader's Guidance, Paper Clippings, and Access to Online Databases. UGC-Infonet learning resource centre with 56 systems facilitates access to E-Resources apart from other computing needs to the users.

Mangalore University library has automated its housekeeping activities using Libsys4. It plans to switchover to the world known and user friendly Open Source automation software KOHA, enabling all libraries under Mangalore University including constituent colleges, PG Centre, and departmental libraries to have a common database, that is functionally distributed for their respective housekeeping activities. While it has already facilitated remote access to all E-Resources through Ez-proxy, is in the process of creating 24x7 reading hall for the users. It has an ambitious plan to provide preloaded E-readers like Kindle to faculty members, research scholars, and PG students. It has a plan to create a digital library of rare manuscripts and books, and another repository of faculty and research scholars' publications, dissertations, and theses. Separate information resource centres for competitive examinations and the visually challenged are planned.

Central Facilities - University Science Instrumentation Centre

The University Science Instrumentation Centre (USIC) was established in the academic year 1992-93 with the financial support of the UGC. Presently, USIC is functioning at Level - I and provides Central Analytical Facility through sophisticated analytical equipments and servicing/repairing facilities for instruments needed for teaching and research in various departments of the University and colleges affiliated to it. Small gadgets required for research studies are also fabricated in the USIC. Training programmes for university and college teachers regarding the maintenance of instruments are conducted in collaboration with the Western Instrumentation Centre (WRIC), Mumbai. Major research projects have been sanctioned by BRNS, DAE, and UGC to this centre. The centre has also initiated R & D programmes and interaction with industry in collaboration with Bhabha Atomic Research Centre (BARC), Mumbai in the field of Radioisotope Applications in Industry for troubleshooting and process optimization.

For more information please visit:

<https://mangaloreuniversity.ac.in/usic>

Central Facilities - Computer Centre

The University has established the Computer Centre as a central facility in 1990 with a special grant from the UGC with the main objective of providing computational service facility to various academic / administrative departments, and also, to impart training to faculty, students, researchers, and administrative staff. The computer centre is well- equipped with good computing systems and manned by a team of qualified professionals. It is upgraded from time to time to provide the best computational infrastructure.

For more information please visit:

<https://mangaloreuniversity.ac.in/computer-centre>

Zoology Museum

The Applied Zoology Museum was established with grants from UGC in the year 2007. Museum houses the Regional fauna and molluscan shell collection. In the regional fauna section local fauna is displayed. Collection includes mainly the earthworms, insects, crabs, fishes, snakes etc. The Shell museum has a collection of shells of more than 2000 molluscan species from all over the world. This collection was donated by Dr M Mukunda Prabhu. Museum serves as a reference point for the local school children as well as for undergraduate zoology students. Museum is under The Chairman of the Department, a Faculty in-charge takes care of the museum with the help of office assistant.

Animal House

Animal house of the University, (Registration No. 232/CPCSEA). is established under CPCSEA regulations in the year 2000. The animal house is maintained and managed as per the Institutional Animals Ethics Committee (IAEC). The biological scientist/animal house in-charge with the help of animal care taker takes care of maintenance of rats and mice in the animal house.

Yakshagana Museum and study centre

The centre was instituted and started to function in the year 2009 to make a systematic study of the various aspects of Yakshagana, the most popular art form of the region. The centre has established good infrastructure, including a “Yaksha Mangala Museum” with nearly twenty life-size models of important characters of northern and southern Yakshagana style. The museum includes a photo corner exhibiting various performance sequences of Yakshagana. The costumes, dress materials, and musical instruments used in Yakshagana are also exhibited. A library houses two thousand five hundred and fifty books on Indian theatre in general, and Yakshagana in particular. Old, rare and valuable manuscripts are preserved in this library.

For more information please visit:

Media laboratory and studio

University has established a good media laboratory and studio for supporting the curriculum. This is extensively used by the students to learn latest developments in audio-visual communication, and related technology. The students of mass communication and journalism have produced several documentaries, interviews with leading personalities and they are available in the following weblinks:

<https://www.youtube.com/watch?v=YKuJZfk1wbU>

NUCLEAR MAGNETIC RESONANCE SPECTROSCOPY (NMR) INSTRUMENT CENTRE (MHRD-RUSA)

Nuclear Magnetic Resonance (NMR) spectroscopic facility was established during August 2019 with the financial assistance of Rashtriya Uchchatar Shiksha Abhiyan (RUSA) Scheme of Ministry of Human Resource Development (MHRD), Government of India. Currently, various research groups within and outside the University are utilizing this facility for their research work. It is accessible to interested researchers at subsidized rates and the rates are displayed in the University website.

<https://mangaloreuniversity.ac.in/about-facility>

**NUCLEAR MAGNETIC RESONANCE
SPECTROMETER**

SPECIFICATIONS

Instrument: FT - NMR SYSTEM

Model/Make: Jeol, JNM-ECZ400S/L1, Japan

Magnetic Type: Compensated self-shielded solenoid

Central field: 9.39T (400MHz ^1H)

Probe: 5mm Broadband, Gradient Auto-tunable

Observation Nuclei: ^1H , ^{13}C , ^{19}F , ^{31}P , ^{15}N , ^{39}K and ^{109}Ag .

HIGHLIGHTS

- ❖ NMR measurements provide identification of unknown materials, determination of chemical structures and quantification of components in a mixture and analysis of conformational and molecular dynamics.
- ❖ NMR is a non-destructive technique that allows a full recovery of the original sample.
- ❖ NMR provides routine services such as ^1H , ^{13}C , DEPT and other X nuclei measurements and special experiments such as NOE, solvent suppression, homo decoupling and variable temperature experiment.
- ❖ 2D NMR such as COSY, NOESY, HMQC, HMBC, TOCSY.
