

MANGALORE UNIVERSITY
Department of Library and Information Science
Master of Library and Information Science

LSH402: INFORMATION PROCESSING: CLASSIFICATION

Objectives:

- To introduce the students with the library classification
- To understand the importance of library classification in organization of knowledge.
- To highlight the importance of canons in the design of classification schemes.
- To understand the fundamental categories.
- To understand the formation of subjects in the Universe of Subjects and be acquainted with major schemes of classification.
- To know the different schemes of classification.
- To develop skills of classification.

Course Outcome (CO):

- CO1 Clear understanding the purpose, functions and principles of subject classification
CO2 Knowledge of analyzing core thought content of modes of formation of subjects
CO3 Clear understanding of criteria of classification of subjects.
CO4 Knowledge of recognizing different fundamental categories.
CO5 Gain the knowledge of constructing classifications numbers for different documents.
CO6 Knowledge and skill of using different schemes of classification that can be used for the organizing the resources
CO7 Understating of recent trends and mode of classifying e-resources.

- Unit 1 : Library classification: Definition, meaning, objectives, purpose and functions. 06hrs
General theory of classification, Theory of knowledge classification, Theory of book classification
- Unit 2 : Universe of Knowledge: Structure, attributes, Modes of formation of subjects. 08hrs
- Unit 3 : Postulational approach to classification: Planes of work and Canons of Classification 08hrs
- Unit 4 : Fundamental categories: Facet analysis and facet sequence, Phase relations, Common Isolates. 08hrs
- Unit 5 : Notational system: Meaning, need, functions and types, Call Number, mnemonics. Hospitality in array and chain, Devices. 08hrs

Unit 6 : Study of selected schemes of classification: Dewey Decimal Classification, 08hrs
Universal Decimal Classification, Colon Classification.

Unit 7 : Classification of e-resources ; Trends in Classification 04hrs
