

Memorandum of Understanding

Between

Julius Maximilian University of Würzburg

and

Mangalore University, Mangalore, India

As part of a constant endeavour to promote mutual understanding and international scientific research, a MoU is hereby entered into on cooperation between the Julius Maximilian University of Würzburg, Germany, represented by its President, Professor Dr. Axel Haase and Mangalore University, Mangalore, India, represented by its Vice-Chancellor, Professor Dr. K. M. Kaveriappa.

Article 1

The University of Würzburg, Germany and Mangalore University, Mangalore, India, agree to cooperate in the following fields:

- Exchange of researchers, teaching staff and non fee-paying students,
- Establishment and organisation of coordinated classes,
- Conducting joint research projects,
- Organisation of international colloquia,
- Regular exchange of documentary publications and teaching materials.

The coordinators for the implementation of this agreement are Dr. Heidrun Brückner, Professor of Indology and South Asian Studies, Würzburg and Dr. K. Chinnappa Gowda, Professor of Kannada, Mangalore University.

Article 2

A project may only be taken up once its funding has been secured.

Article 3

The number of students and academics who may participate in the exchange, the financial conditions for accommodating students and academics and all questions connected with this will be agreed in each individual case separately. Both Universities declare their willingness to give their guests from the partner university every possible support during their stay. The exchange will take place after a written invitation has been sent setting down all the details of each stay.

Article 4

The MoU will come into effect from the date of signature by both parties. This MoU is entered into for an indefinite period. Both parties may terminate the cooperation provided that notice is given by 1 July at the latest to come into effect by the following 31 December. Ongoing projects and exchanges have to be completed.

Memorandum of Understanding

between

Franklin University, USA

and

Mangalore University, India

This Memorandum sets out the cooperation between Franklin University (hereafter 'Franklin') and Mangalore University (hereafter 'MU'). Franklin, based in Columbus, Ohio, USA is a private, non-profit university established in 1902 and is fully accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. MU, based near Mangalore, Karnataka, India, is a state sponsored university set up in 1980 and is accredited at the four-star level by the National Assessment and Accreditation Council of the University Grants Commission. Franklin and MU agree to cooperate initially in the field of business administration. Subsequent cooperation in other fields is envisaged and subject to mutual agreement.

Cooperation in Business Administration

Both Franklin and MU recognize mutual benefits from cooperating in the following specific areas:

1. Executive MBA

With regard to the Executive MBA to be launched at MU Franklin will share with MU its experience in designing and offering Executive MBA programs in other countries. Franklin will also send one to two faculty members to MU to teach as guest faculty on the Executive MBA program, at no cost to MU. Subjects to be taught and timetable will be determined at a subsequent meeting. Franklin can also arrange for a visit to the U.S. for MU program participants as part of their experience, including visits to corporations and lectures at Franklin.

2. Undergraduate Programs

Franklin offers students from colleges affiliated to MU the opportunity to earn a Franklin Bachelor degree under what is usually termed a '3+1 program'. Franklin will determine the maximum number of transfer credits allowable for each student and admit him or her to its own program. The student will then take the additional courses required to complete the Franklin Bachelor degree, usually in a one-year period. The Franklin courses could be offered at MU and/or at Franklin, as well as in a blended classroom/online format. MU agrees to select, and provide introductions to, suitable affiliated colleges. Details will need to be set out in a separate agreement. Franklin will initially offer one-year scholarships to two students proposed by MU.

General

This Memorandum of Understanding is valid initially for a period of ten years, starting January 1, 2009, and is renewable subject to mutual agreement. The two partners will hold review meetings atleast once a year, alternating locations between Franklin and MU, to assess progress in existing areas of cooperation and determine the feasibility of expanding cooperation in the future.

**Memorandum of Understanding
between
Aarhus University
and
Partner universities in the IBIES consortium**

Erasmus Mundus Action 2 Partnerships – Lot 11 – IBIES
Grant agreement nr: 2012-2637/001-001 EMA2

Scholarship scheme for academic exchange between India and EU countries

This Memorandum of Understanding (MoU) establishes a partnership between

Aarhus University

(Nordre Ringgade 1, 8000 Aarhus C, Denmark; represented by Prof. Jan Ifversen, Vice-Dean, Faculty of Arts) hereafter 'the coordinator'

And

Mangalore University

(Mangalagangothri, Mangalore, Karnataka State, Pin. 574 199, India; represented by Prof. P.S. Yadapadithaya, Registrar, Mangalore University)

regarding participation in the 'Interdisciplinary Bridges in Indo-European Studies – IBIES' project.

IBIES is an Erasmus Mundus Action 2 Partnership – Lot 11 – India project funded by the European Union. It is coordinated by Aarhus University and supported by a consortium of European and Indian universities.¹

1. Objectives of this Memorandum of Understanding

The objective of the MoU is to reach a sound management of the partnership and address all aspects linked to the organization of the mobility scheme. It promotes good standards of cooperation, it describes the principles of good partnership and it mentions all duties and responsibilities related to the IBIES project, such as the role and involvement of coordinator and partner institutions; financial management; application, selection and admission procedures; and academic recognition among others.

2. Management of the project

2.1. Organizational structure

The overall coordination of the IBIES project lies in the hands of Aarhus University, but managerial tasks and responsibilities will be shared among the partner institutions in order to maximize the involvement of all partner institutions, to enhance transparency and to foster mutual respect and understanding. The following organizational structures are in place to ensure the sound and transparent management of the project:

¹ The IBIES consortium consists of Aarhus University (coordinator), IIT Madras (Co-coordinator), Leiden University, University of Milan, University of Warsaw, Reutlingen University, Hochschule Bremen (University of Applied Sciences), Banasthali University, Bastar University, Jawaharlal Nehru University, Mangalore University, Manipal University, Manomaniam Sundaranar University, Pondicherry University, Sambalpur University, Symbiosis International University, University of Calcutta, University of Delhi, Vinoba Bhave University.

12/4/2013

Project Management Team

The Project Management Team consists of the coordinator, one project manager, one financial administrator and the Head of AU Research and Talent, Faculty of Arts, Aarhus University as well as two representatives from the Co-coordinator, IIT Madras. The Project Management Team is in charge of the daily management of the project which includes the overall coordination, financial management, reporting to EACEA, communication and promotion, organization of Steering Committee meetings, Consortium Selection Committee meetings, etc.

Steering Committee

A Steering Committee is installed at the consortium level. Each partner institution has one representative in the Steering Committee. Its main task is to ensure the overall consistency of the project. Its assignments include overall coordination, strategic planning, decision making and approval of activities related to preparation, implementation and evaluation of mobility. The Steering Committee meets at least annually during the course of the project. The coordinator will act as Chairman of the Steering Committee.

Selection Committee

The Selection Committee is in charge of the selection of eligible scholarship candidates and the composition of the Mobility List, to be sent to the EACEA. The Selection Committee comprises 7 members of which the academic representative from the coordinating university will act as Chairman for the duration of the IBIES project. Prior to selection of each of the planned cohorts the Steering Committee annually elect the 6 members – three members from EU and three members from India – who constitute the Selection Committee along with the Chairman.

Local Management Teams at partner universities

Local Management Teams are in charge of the financial management of the local budget, practical organization and follow up of the mobility activities, and regular reporting to the Project Management Team. The Local Management Teams consist of at least two university representatives (typically one academic and one administrative coordinator), familiar with both the organizational and academic aspects of international mobility.

Mobility Committee

In addition to the Steering Committee a Mobility Committee is installed to facilitate mobility and seek solutions to experienced problems at the home and host universities whenever required. The Mobility Committee consists of one administrator from each of the European host universities as well as one administrative representative of the Co-coordinator. The Mobility Committee will report to the Project Management Team and the Steering Committee.

2.2. Financial Management

The Project Management Team is responsible for the overall management of the project's budget. This includes: transfer of organizational grants to all partner institutions, transfer of mobility grants to the European partner universities, financial management with regard to the health insurance and airplane tickets, and the financial follow up of the coordinator's budget.

The coordinator will transfer the money for the **monthly allowances** to the European partner institutions after the selection and admission procedures are finished. By the end of each mobility period **Tuition fees** will be transferred (up to € 3000) to the partner universities if applicable. The

partner university will need to present and invoice to the coordinator to recover the payment of the tuition fee. Tuition fees can only be charged in case the duration of the mobility is 10 months or more. In cases of full-degree mobility tuition fees will be transferred on a yearly basis. In cases tuition fee exceed the maximum cover of € 3000 the partner university will waive the remaining amount. Additionally the coordinator is responsible for taking full **insurance** coverage (health, accident, travel) for all IBIES students and staff participating in the foreseen mobility activities. **Travel costs** will be paid on a regular basis by the coordinator to a travel agency, responsible for issuing the plane tickets for the scholarship grantees.

The Local Management Team of the partner institution is in charge of the financial management of the local organizational budget. The European Local Management Teams are also in charge of the accurate payment of the scholarships (monthly allowances) to the incoming students and staff.

This MoU entitles each partner institution to receive a maximum of € 7500 from the organizational budget. The partner institution's budget must cover travel expenses, accommodation and per diem costs related to official meetings in the IBIES-project. In addition administrative costs related to the implementation of mobility at host institutions can be covered from the partner institution's budget. Transfer of the organizational budget will be done in two installments. The first installment, amounting to € 2500, will be transferred within two weeks after signing of this MoU. If required the second installment, amounting to maximum € 5000, shall be transferred when the coordinator has received and accepted a detailed statement of the expenses incurred of the expenditure of the first installment along with a budget for expenditure of the second installment.

Upon request partner institutions have to submit a financial report to the Project Management Team. The Project Management Team will announce requests for financial and administrative reports at least one month in advance. The reporting data will be used for internal control, the EACEA's Activity Report and the EACEA's Progress Reports.

3. Promotion and communication

Several communication channels are in place to promote the project. In order to strengthen the corporate identity of the IBIES network a project logo has been designed. The logo will be widely used by both coordinator and consortium partners. The project will be promoted through the IBIES electronic brochure, the IBIES poster, the IBIES website, and a social network site.

The partner institutions are committed to widely disseminate information on the project within their academic community through information sessions, mailings (PDF brochure and poster), student discussion boards and other means of local communication tools. All partners will clearly refer to the IBIES project at their university website. European partners will contact their (bilateral) Indian partners (non-consortium members) and local embassies to promote Target Group 2 scholarship opportunities.

The associated partners of the IBIES consortium will promote the project within their network and the wider community to attract Target Group 2 applicants.

Internal communication between the partner institutions happens through email groups and tele/videoconferencing, if necessary.

4. Mobility

The project proposal, approved by the European Commission, counts 100 mobility flows in total. The mobility can take place at the doctorate, post-doctorate and staff level from India to Europe. Mobility grants are composed of four parts:

1. Monthly allowances (doctorate - € 1500/month, post-doctorate - € 1.800/month, staff - € 2500/month)
2. Health insurance
3. Tuition fee (if applicable, up to € 3000)
4. Travel costs (up to € 2000).

Mobility activities can take place in the following thematic fields:

- Business Studies and Management Sciences (04)
- Social Sciences (14)

The Consortium Selection Committee will strive for a balanced mobility scheme when selecting the scholarship grantees. This implies that the types of mobility, the target groups, capacity of sending and hosting institutions, geographical coverage and gender balance will be taken into account.

The organization of the mobility should start in the same year of the application. The partnerships can organize the student mobility in several cohorts according to the following timeline. **First cohort** – the mobility can start as from September in 2012. The latest date for starting mobility must be 31 December 2013. Any long-term mobility (i.e. 36 months) must start in the first cohort, in order to ensure that the end date falls within the eligible period. **Second cohort** – the mobility can start as from September 2013. The latest date for starting mobility must be 31 December 2014. **Third cohort** – the mobility can start as from September 2014. The latest date for starting mobility must be 31 December year 2015. Staff mobility can start in any time within the project duration and must end within the project eligibility period.

5. Application, selection and admission

The coordinator and partner institutions ensure a transparent application and selection process of scholarship candidates.

5.1. Application

Applicants have to complete an online application form, to be found at the IBIES website. Relevant application documents (transcripts, diploma, language test, motivation, etc.) can be uploaded as well. Unique application forms according to the target group or the level of mobility are available online.

The application process is as follows: 1) online application by applicant; 2a) Screening for complete applications and eligibility check by Coordinator of Target Group 1 and Target Group 2; 2b) Screening for complete applications and eligibility check by Co-coordinator of Target Group 3; 3) “first selection” by program director/Study Board at host institutions; 4) selection by the Consortium Selection Committee; 5) approval by program director/Study Board at host institution followed 6) by final approval by the Consortium Steering Committee.

Applicants need to upload the following documents as a final step of the online application

- PhD students
 - Passport picture
 - Copy of passport
 - Degree certificate(s) and academic transcript of higher education studies
 - Proposed research plan
 - Support letter from hosting supervisor/research group

- Recommendation letter from academic supervisor (or departmental coordinator) at the home institution
 - Academic CV (list of publications, awards, research output)
 - Copy of language certificate (only if required by the programme)
 - Any other relevant document (only if applicable)
- Post-doctorate and staff
 - Passport picture
 - Copy of passport
 - Academic CV (list of publications, awards, research output)
 - Work plan (describing research activities, guest lectures, training courses, etc.)
 - Support letter from host professor/research group

5.2. Selection

The parameters for selection are:

1. Academic performance and merits (including cumulative Grade Point Average – Grade Sheets)
2. Teacher's evaluation / references (including class contribution, leadership qualities, cooperation with team members, and other activities)
3. Language skills
4. Letter of motivation (programme for staff, post-doc, PhD)
5. Socio-economic background, i.e. belonging to a vulnerable / disadvantaged group
6. Co-curricular Activities – conferences attended, papers presented, publications (only PhD and higher)

A **fixed and transparent point system** will be used, which takes into account the historic discrimination and disadvantaged position of vulnerable groups by including this specific situation as one of the criteria. The following points will be counted: The criteria 1-5 will be applicable for all applicants and will lead to a 15 points chart (0-3 points per criteria). Additionally 3 points can be added in case of vulnerable groups; while in case of PhD and higher academic levels it will be a maximum of 18/21 points.

The individual points indicate: 3 – excellent, high level of command of all aspects; 2 – above average, very good performance with some minor weaknesses; 1 – average, generally acceptable, but with flaws; 0 – below average, substantial gaps and inconsistencies. Particularly, relevance is essential for both sides and a candidate may be rejected if his application is not relevant, i.e. cannot be integrated into existing programmes.

The first assessment of the PhD applications is done by the program director or Study Board/host professor at the receiving institution. The Local Management Team submits a shortlist including a ranking of the selected, reserve and rejected candidates to the coordinator. The final selection is made by the Steering Committee based on the shortlists and according to the parameters described above. The outcome of the selection results will be announced by email within two weeks (ten working days) of the selection result.

Staff applications will be evaluated by the Selection Committee based on academic merits, the proposed assignments (research, teaching, etc.) and the supporting letter of host professor/research group.

5.3. Admission

The coordinator will inform the applicants on the selection outcome by email. Selected students and staff will receive an acceptance letter from the host university and will be asked to confirm their acceptance of the grant within 10 days after the selection outcome has been announced. After the candidate has accepted the nomination the coordinator will provide him/her a grant statement (=scholarship letter) for his/her signature. The scholarship letter will be used together with the official admission or invitation letter of the host institution for the visa application.

Selected students have to go through all administrative formalities (including submitting the mandatory original documents) that are required by the host institution before being able to receive an official admission letter. The coordinator will contact the first candidate in line on the reserve list in case a nominated scholarship grantee refuses the scholarship.

6. Academic recognition

The coordinator and partner institutions agree on the following principles concerning academic recognition

- PhD students

PhD students will obtain certification documenting their enrolment at the host university. Admitted PhD candidates should comply with the local legislation in order to be able to obtain a degree.

7. Prevention of brain drain

The coordinator and partner institutions commit themselves not to encourage students and researchers to stay at the host institution after the end of their scholarship. Scholarship grantees are encouraged to make future study, research, teaching and/or career plans in their home country.

In addition a financial measure will be in place to motivate students and researchers to go back to their home country. The final installment of the scholarship will only be transferred upon return of the grantee and after submitting an evaluation report of the stay abroad.

8. Sending and hosting responsibilities of the partner institutions

All partner universities will guarantee an efficiently functioning mobility scheme. Each partner institution will promote IBIES by disseminating information within the university and the wider community through mailings, information sessions, posters, brochures, etc.

Acting as home institutions the Indian partner institutions will prepare and guide their selected students and staff before departure, both from an academic and administrative point of view. They will support their students in compiling a suitable combination of courses; provide them with the requested documents (e.g. certificate of enrolment, learning agreement); communicate with the host institution and coordinator when necessary, etc.

Acting as host institutions the European partner institutions will provide all necessary information related to the practical and academic preparation of the scholarship grantees' stay. This includes information on available courses, housing facilities, local language courses, program and welcome guides and letter of invitation for visa among others. Upon arrival the host institution will actively

support the student or staff on camps by organizing welcome activities, providing assistance with regard to housing, student/staff contract, certificate of arrival, social integration, registration at the university and at the city hall, payment of the grant, student contract, etc. During the stay of the scholarship grantees the Local Management Teams will supervise the mobility, solve day-to-day problems and communicate with the home institution or coordinator in case any problems arise. At the end of study/research/teaching period abroad, scholarship grantees will have to submit an evaluation report (description of their activities) to the Local Management Team who in its turn submits the document to the Project Management Team for approval.

9. Terms of understanding

This MoU is in place to promote the principles of good partnership in the framework of the IBIES project and is by no means a general cooperation agreement between the coordinator and the partner institutions. It shall enter into force on the date when the last of the parties signs. The action and the period of eligibility of costs shall be retroactively in force from 15. July 2012 and will end on 14 July 2016.

If one of the parties fails to implement the provisions of the Memorandum of Understanding all necessary measures, including halting of payments and/or cancelling of activities, can be taken by the Project Management Team.

We, the undersigned, declare that we have read and accepted the terms and conditions of the MoU as described here before.

MTA Agreement

THIS AGREEMENT is made the 6th day of February, 2015.

BY AND BETWEEN

MANGALORE UNIVERSITY, MANGALAGANGOTTHRI 574199, Karnataka, India (hereinafter referred to as "Organisation" which expression shall mean and include all its successors, assignees and affiliates).

AND

SYNGENTA BIOSCIENCES PRIVATE LIMITED, a Company registered under Indian companies Act 1956 and having its registered office at "Amar Paradigm", S. NO.110/11/3, Baner Road, Baner, Pune-411045 (hereinafter referred to as "Syngenta Biosciences Pvt Ltd" which expression shall mean and include all its successors, assignees and affiliates).

BACKGROUND

- (A) Organisation owns certain material described in Schedule 1 to this Agreement (the "**Material**");
- (B) Syngenta Biosciences Pvt Ltd wishes to conduct certain tests with the Material to evaluate its agrochemical activity;
- (C) Organisation has agreed to provide Syngenta Biosciences Pvt Ltd with the Material and all information reasonably requested by Syngenta Biosciences Pvt Ltd in connection with such tests (the "**Information**"), upon the terms and subject to the conditions in this Agreement;
- (D) The parties contemplate that if Syngenta Biosciences Pvt Ltd is satisfied with the potential usefulness of the Material, the parties will enter into negotiations covering their possible further testing and development by Syngenta Biosciences Pvt Ltd;

NOW IT IS AGREED as follows:

1. CONDUCT OF THE TESTS

- 1.1 Organisation will supply Syngenta Biosciences Pvt Ltd with a sufficient amount of the Material to enable Syngenta Biosciences Pvt Ltd to conduct such tests, of such nature, as Syngenta Biosciences Pvt Ltd in its discretion considers appropriate for determining the agrochemical activity of the Material (the "**Tests**"). Syngenta Biosciences Pvt Ltd will not analyse the Material in order to determine the chemical structure.
- 1.2 Syngenta Biosciences Pvt Ltd will carry out the Tests on the Material at its own expense and will provide Organisation with a summary of the results of the Tests (the "**Results Summary**") within three (3) months of completion of the Tests. For the avoidance of doubt, Syngenta Biosciences Pvt Ltd shall be under no obligation to disclose specific details of its test methods.
- 1.3 Syngenta Biosciences Pvt Ltd shall be entitled to perform any obligation and to exercise any right it has under this Agreement through any Affiliate (as defined below). Any act or omission of any such Affiliate shall for the purposes of this Agreement be deemed to be an act or omission of Syngenta Biosciences Pvt Ltd.
- 1.4 For the purposes of this Agreement "**Affiliate**" means any business entity which controls, is controlled by or is under common control with Syngenta Biosciences Pvt Ltd; for the purposes of this definition, a business entity shall be deemed to "control" another business entity if it owns, directly or indirectly, more than 50% of the outstanding voting securities or capital stock of such business entity or any other comparable equity or ownership interest with respect to a business entity other than a corporation.

2. WARRANTY

- 2.1 Organisation warrants that it has the right to supply the Material to Syngenta Biosciences Pvt Ltd for the Tests and that Syngenta Biosciences Pvt Ltd's use of the Material and performance of the Tests on the terms and conditions of this Agreement will not infringe any rights of third parties.
- 2.2 Organisation warrants that it has no safety data available to it in relation to the Material (safety data meaning environmental hazard data and human toxicological data).

3. TERM

- 3.1 This Agreement will commence on the date at the top of page 1.

3.2 It shall continue for a period of one year (the "Initial Period") and after that period unless and until terminated by either party giving at least one month's written notice to the other to expire on or at any time after that Initial Period.

3.3 Termination will not affect the continuing provisions of Clauses 4, 5, and 6.

4. CONFIDENTIALITY

4.1 For a period of five (5) years from the date of receipt of the Information Syngenta Biosciences Pvt Ltd shall keep it secret and confidential and will not disclose the Information nor supply any of the Material to any entity, person or other organisation whatsoever, except to employees or representatives of Syngenta Biosciences Pvt Ltd and its Affiliates and their employees and representatives.

4.2 Syngenta Biosciences Pvt Ltd agrees that it will use the Information exclusively for carrying out the Tests, and will not use it for the manufacture, sale or license of the Material or any preparation or derivative containing the Material anywhere in the world, unless the parties enter into an agreement authorising this.

4.3 For a period of five (5) years from the date of receipt of the Results Summary, Organisation shall keep the Results Summary secret and confidential and will not disclose it to any entity, person or other organisation whatsoever, or publish it in any way (for example in a lecture or poster session or in a paper in a scientific journal or any posting of data on the internet) without the express written consent of Syngenta Biosciences Pvt Ltd.

4.4 The provisions of Clauses 4.1, 4.2 and 4.3 will not apply to any part of the Information or Results Summary which:

4.4.1 is already public knowledge or which become public knowledge other than as a result of a breach of this Agreement;

4.4.2 the recipient can show by documentary evidence was already known to the recipient or its Affiliates at the time of its receipt;

4.4.3 is disclosed to the recipient or its Affiliates by a third party with the lawful right to make such disclosure;

4.4.4 Syngenta Biosciences Pvt Ltd and Organisation agree in writing may be disclosed;

4.4.5 is independently generated by either party without the use of and not as a consequence of the Information or Results Summary received from the other party; or

4.4.6 is required by law or judicial decree to be disclosed to a government or regulatory authority or court, provided that the recipient promptly notifies the other party when the obligation arises, to enable the other party to take all necessary steps to protect the confidentiality of the information concerned.

4.5 Neither party shall issue a press release, make any announcements or otherwise disclose the existence or content of this Agreement without the prior written consent of the other party.

5. FURTHER EVALUATION

If within the term of this Agreement Syngenta Biosciences Pvt Ltd notifies Organisation that it wishes to carry out further tests on the Material, the parties will within six (6) months of Syngenta

6. RESULTS

- 6.1 The results of the Tests shall belong to Syngenta Biosciences Pvt Ltd.
- 6.2 During the Initial Period the Organisation shall not grant to any third party an exclusive licence of its technology relating to the Material.

7. MISCELLANEOUS

- 7.1 Nothing in this Agreement constitutes an offer of any rights to Syngenta Biosciences Pvt Ltd in the Material (including any right to make, use or sell the Material or any product or derivative containing the Material) other than the right to carry out the Tests and any further work agreed in accordance with Clause 5.
- 7.2 This Agreement is personal to the parties. Subject to Clause 1.3, it may not be assigned, sublicensed or subcontracted by either party, except Syngenta Biosciences Pvt Ltd may assign all or any of its rights and/or transfer all or any of its obligations to an Affiliate and Organisation consents to such assignment and/or transfer and will enter any confirmatory documentation as Syngenta Biosciences Pvt Ltd may reasonably require.
- 7.3 Nothing in this Agreement shall restrict or prevent either party from carrying out its own research either independently or in conjunction with third parties and from developing or commercialising the results of such independent research, provided that in doing so it does not make use of the other party's confidential information without their prior written consent.

COLLEGE OF ENGINEERING & MANAGEMENT
ADYAR, MANGALORE -575 007

and

MANGALORE UNIVERSITY,
MANGALAGANGOTRI, KONAJE, MANGALORE - 574 199

for

**Collaborative Research and
Development, Education, and Training**

on

20th February, 2015

1. Purpose and Objectives:

1.1. Purpose. This Memorandum of Understanding (MoU) establishes the framework for collaborative research and development (R&D), and training efforts (hereafter called "collaboration") between Karnataka Government Research Centre, Sahyadri College of Engineering and Management, Adyar, Mangalore-575007 (hereafter called "KGRCS"), Mangalore, affiliated to Visvesvaraya Technological University, Belgaum, Karnataka and Mangalore University, Mangalagangothri, Konaje, Mangalore (hereafter called "MU").

Collaborations under this MoU are focused on, but not limited to, R&D work in projects relevant to composite materials, structural engineering (dynamics, design auditing and testing), material testing and visiting faculty or R&D assignments, M.S., M.Tech., Ph.D. programs, short-term training, and short-term courses. The MOU is intended to expedite R&D of new methods and technologies that can be implemented in support of MU and KGRCS missions as well as authorized organizations to enhance technological capabilities, skilled human resources and economic growth. It is also aimed at enhancing the quality of research and teaching at KGRCS and MU.

Both KGRCS and MU believe that this collaboration will contribute to more efficient resource utilization, avert or minimize duplication, and accelerate education methods and technology advancement in critical areas in science and engineering. The two organizations further believe that successful collaboration will leverage beneficial results via method and technology transfers to industry, education, and training programs (including those for future entrepreneurs).

1.2. Objectives. KGRCS and MU will work collaboratively to expedite the development of methods and technologies that are needed to address critical research needs of the industry improving interaction between educational institutions and Industry as envisaged by monitoring agencies like UGC and AICTE.

- i. Identify methods and science/technology needs, formulate research and development projects collaboratively that address technology needs, and establish arrangements that describe how personnel and resources of KGRCS and MU will be effectively utilized to perform research and development projects addressing these needs (such as projects involving materials characterization, marine technology and biotechnology issues).
- ii. Perform in an expeditious manner collaborative research and development projects.
- iii. Provide products from the research and development projects in a form and format that can be easily used and understood by high technology and other industries which could result in social benefits and commercial applications.

xi) Make provisions for KGRCS or MU faculty members as Visiting Faculty at KGRCS or MU for limited durations if need arises such that the faculties will get their salary and other benefits from their respective organizations.

xii) Assign a Management Points of Contact (MPC) and Technical Leads (TL) for interactions between MU and KGRCS on all major collaborative grants or activities.

xiii) Provide, in cooperation with MU and KGRCS MPC, an annual executive summary report on the progress made under this MoU for each of the collaborations, or other cooperative activities, that are developed as part of this agreement (MoU).

xiv) Record, produce and maintain minutes of meeting as described in this MoU.

3. Memorandum of Understanding (MoU) Administration:

3.1 Reports. The status of work performed under this MoU will be reviewed on a quarterly and annual basis. The MU or KGRCS will take the lead for specific research projects and be responsible for organizing meetings (planning half yearly meetings and annual meetings), developing agenda and recording results of the meetings. Minutes of the meetings will be produced by KGRCS or MU and be distributed to participants of the meeting as well as to the Directors and concerned authorities. A central file (retained by MU or KGRCS) will be maintained.

3.2 Information Releases: Director of Research, KGRCS and the designated authority from MU will jointly review and approve information regarding MoU activities (meetings, new developments, etc.) prior to public release. Reports prepared under this agreement will stipulate specific procedures for the coordination, handling and public disclosure of information. All information disclosures concerning activities under this MoU or subsequent reports will comply with MU and KGRCS regulations governing the release of information. Where particular information protocols apply to a particular laboratory, or network of laboratories, those protocols will be explained in advance of the start of work and be followed by both parties to this MoU.

3.3 Facility Security, Health, Safety, and Environmental Compliance: The host facility's security, health, safety, and environmental compliance programs will be followed by all personnel when engaged in work activities as outlined in this MoU. Should an employee be injured in the course of doing their duties, workers injury claims shall be covered by the employee's agency. Student related injuries, occurring during the course of research shall be handled by the institution where the injury occurred. All injuries must be reported to MPC's within 2 hours.

3.4 Reimbursement Policy: Each party to this agreement will handle and expend its own funds allocated as per the research proposal grant, except as otherwise noted in the MoU. The responsibilities assumed by each party are contingent upon funds being available from which expenditures legally may be met.

2. Responsibilities:

2.1 Karnataka Government Research Centre, Sahyadri and Mangalore University, Mangalore agree to:

- i) Jointly identify project areas and topics, and prepare and submit project proposals to established funding agencies in the country.
- ii) Implement research programs in their respective facilities and mutually cooperate in developing educational and training programs of relevance and mutual interest.
- iii) Permit their respective faculty members to mutually guide M-Tech and Ph.D. research programs and activities in their organizations.
- iv) Make all the necessary provisions to utilize the related research laboratories and other facilities in their respective organizations. Projected costs for internal and external services will be included in all proposals, if required.
- v) Organize and conduct continuing education (CE) and short-term certification courses in their respective organizations and in their respective domains of expertise for professional development of industry employees/personnel, future entrepreneurs, and Science and Engineering faculty.
- vi) Participate in joint technical activities (e.g., technical inspections, workgroups, scientific or engineering panels, paper preparation and presentation, workshops, conferences, etc.) with representatives from KGRCS, MU, and other organizations to provide technical advice and guidance on issues related to research needs. Both institutions shall collaborate with each other in conducting National and International level seminars, conferences, and symposiums.
- vii) Be in contact and prepare an annual report of all their conducted collaborative activities which will include both technical and financial summaries.
- viii) Work together to exchange information consistent with research considerations and identify areas of collaboration, development; formulate, and submit proposals of interest singly or jointly with MU or KGRCS to NAL, SERC, DST, DIT, DBT, DRDO, CSIR, ISRO, DAE (BRNS), UGC AICET, VGST and national laboratories (such as R&D projects, technology assessments, testing, calibration, and consultancy); carry out such sponsored projects; and describe specific R&D projects, education activities, and training programs that will be jointly pursued by KGRCS and MU for mutual benefit.
- ix) Facilitate M. Tech. or Ph.D. programs of qualified MU or KGRCS (SCEM) employees in research topics of KGRCS or MU expertise. The Guide/Major Advisor shall be from MU or KGRCS for each such program. A co-guide may be assigned from the alternate MoU party.
- x) Facilitate each other facilities for conducting such research work free of cost or based on mutually agreed rate wherever required.

4. Period of Agreement:

4.1 This MoU shall be effective for 10 years from the date of the last signature unless canceled in writing by either of the participating organizations with 90 days written notice.

4.2 Conflicts that may arise after the MoU is in effect will be resolved by KGRCS and MU MPC's. If conflicts cannot be resolved at this level, then they will be taken to the respective Directors of KGRCS and MU Vice Chancellor. If conflicts cannot be resolved at this level, then the signatory authorities for this MoU will resolve the conflicts either by coming to a written agreement or by amending this MoU.

4.3. This MoU will be reviewed annually by the MPC's or higher management to determine if any changes or amendments should be incorporated. Such changes or amendments will be formally incorporated in the MoU within 30 days of the annual review.

4.4 Within 30 days of its expiry, this MoU may be renewed on same terms as on the date of expiry upon a signed agreement of renewal between the respective signers of KGRCS and MU.

5. Notices:

All notices, requests and other communications under this MoU shall be in writing and shall be deemed to have been duly given and made if addressed and delivered by hand, or by facsimile, or by e-mail to the addresses set forth below (or to such other addresses as may be given by written notice).

3.5 Annual Management Meetings: KGRCS and MU will meet annually to plan and coordinate collaborations under this MoU. Such meetings will be held at a mutually agreed upon location and on a date that is compatible with the planning and budgeting cycle of each organization. At this meeting, recommendations for adjustments to current activities, projects, and budget priorities will be proposed and agreed upon by the MPC's for submission to the KGRCS Director (Research) and MU Vice Chancellor for further action.

3.6. Technical Lead Responsibilities: Technical Leads (TL) for each project or activity will strive to engage in:

- Providing scientific and technical information exchanges consistent with agency regulations governing the exchange or release of information which will be explained prior to the start of any research.
- Delivering written or verbal scientific and technical evaluations of progress half yearly
- Organizing and participating in scientific/technical workshops and scientist-to-scientist meetings or conferences.
- Reporting to MPC's on any exceptional accomplishments from, or impediments to, successful program or project execution immediately.
- Recommending improvements for the MoU activities

3.7 Approvals: All plans, resources allocations like sharing the facilities and activities design to carry out this MoU shall be agreed to and approved by two parties of this MoU namely, KGRCS and MU prior to commencement of any scientific/technical work.

3.8 Inventions and Licensing: Inventions and Licensing: Activities conducted to carry out this MoU and any project or other extramural arrangements may results in products or processes that are patentable or otherwise proprietary. The principal investigators organization (KGRCS or MU), whose work results in the invention, shall disclose the invention to the other MoU party and then prepare, file, and prosecute patent applications. The cost of the patent application will be borne by the principal investigators organization (KGRCS or MU). If protection is granted, the *inventing organization* will manage the invention in accordance with its rules and regulation. The non-inventing organization will manage the invention in accordance with its rules and regulations. The non-inventing MoU party to this MoU will have licensing right to all patents protected for an annual charge of 1 rupee per year for 20 years. KGRCS and MU can jointly develop a plan to cross-license future patentable improvements to the original patent prior to or at the time the patent is signed/ issued.

Royalties resulting from the licensing of the patent will be given to the inventing institution (KGRCS or MU) with signee's on the patent getting 5% of the total (divided equally amongst the patent signers) for the first year and 3% of the total (divided equally amongst the patent signers) for the second year and subsequent years.

6. General Provisions:

6.1. This MoU supersedes any other memorandum of understanding held by either party with regard to the research to be performed.

6.2. This MoU in no way restricts the parties from participating in similar activities or arrangements with other public or private agencies, organizations, or individuals with the exception that any confidential information has to be approved prior to release by both parties.

6.3. This MoU describes in general terms, the basis upon which the parties intend to cooperate. It does create binding obligations between the parties until the MoU is dissolved.

FATHER MULLER HOMOEOPATHIC MEDICAL COLLEGE

AND

MANGALORE UNIVERSITY

Purpose of the agreement: To establish ties of research co-operation in order to contribute to the achievement of their overall goals as public institutions of higher education and research. This agreement seeks to create a multi-disciplinary, multi-level relationship between the aforementioned institutions. To achieve these goals, Father Muller Homoeopathic Medical College & Mangalore University will investigate opportunities in the following areas, insofar as the means of each allow:

- Promote institutional exchanges by inviting faculty and staff of the partner institutions to participate in a variety of teaching and/or research activities and professional development.
- Development of joint scientific and/or technological research projects
- Receive students of the partner institution for periods of research. It is understood that acceptance of any students will be at the discretion of the institution providing the learning experience, and that any visiting student will be responsible for his/her own living expenses and will, at all times, be subject to the policies and regulations of the supervising school and community.
- Organize symposia, conferences, short courses and meetings on research and academic issues.
- Exchange information pertaining to developments in research at each institution
- Any other activity of mutual interest regarding academic or scientific and technological research matters.

Execution of the Agreement: The specific research activities to be carried out under this agreement will be mutually agreed upon at the time of implementing of the research program. The research plan or project between both institutions will specify their objectives, terms and conditions and ways of execution and period of research with reference to both the institutions. In case of usage of

laboratory facilities, a bench fee of Rs. 100/- per day per person will be levied by Mangalore University.
No financial obligation will rest with Mangalore University.

Term & Expiry of the Agreement: The agreement will be effective on the date it has been signed by both parties, and it will be in effect for a period of five years (5 years). The agreement can be renewed for additional five years (5 years) period by mutual consent of the parties. A letter stating the intention of renewing this agreement by both institutions will formalize this renewal process. Both parties reserve right to terminate this agreement upon written notice given six months (6 months) prior to the termination date becoming effective. In the case of termination of this agreement, projects which have been initiated during the time this agreement was in effect shall continue with full support of the respective institutions until their completion.

1. AIM OF THE MOU

The aim of this MOU is to provide a framework for an active collaboration on the long term research project of the Two Institutions in the areas of **"THE KONKANI PEOPLE OF KARNATAKA; A STUDY OF THEIR ORIGIN, MIGRATION AND SETTLEMENT PATTERNS"**. The MOU aims to strengthen the mutual understanding, foster friendly cooperation, and promote sustainable and productive research collaboration and supervision.

2. SCOPE OF THE MOU

In pursuit of the aim of the MOU, the parties hereby agree to undertake, to promote within the framework of the provision of the respective act/statutes/ordinances/regulations applying in each of the institutions, and subject to the availability of resources, the following activities:

1. Joint Research Work and Supervision
2. Exchange of relevant information and joint publications
3. Utilisation of facilities at each other's campus subject to availability and other terms and conditions of the both the parties.

3. COMMENCEMENT AND DURATION

The MOU will come into effect from the date of signature by both the parties and will remain in force for an initial period of 04 years.

This MOU may be amended/extended by the written agreement and mutual consent of both the parties.

4. CONFIDENTIALITY

Both the parties acknowledge that any information disclosed by or on behalf of any of the parties which is not in the public domain is confidential and may not be used or disclosed to any other party (whether before or after the termination of this MOU) for any reason whatsoever save as may be strictly necessary for the due and effectual rendering of the services. Any research data exchanged or shared between the parties for joint research/supervision will not be transferred to third party without the consent of the parties.

5. INTELLECTUAL PROPERTY

It is the intention of the institutions that any and all research derived from the collaborative efforts of the two parties will be the joint property of the both the parties, proportionate to the parties respective contributions.

6. GENERAL CONSIDERATIONS

1. The Joint research supervision leading to the award of M.Phil or Doctor of Philosophy

2. As per the resolution undertaken in Advisory body meeting of Konkani AdhyayanaPeeta held on 17-11-2017 at Syndicate hall, Mangalore University, to carryout research project, two fellowships will be awarded to the eligible candidates'.
