# SYLLABUS

PH.D.

## PAPER I: RESEARCH METHODOLOGY IN ECONOMICS

### **Module I: Foundations of Research:**

What is research? Social science research and Types of research- difference between pure and applied research-descriptive research, diagnostic research, experimental research, non-experimental research, and analytical research. Action research and steps in research.

### **Module II: Research Planning and Review of Literature**

Research design-identification of a problem-conceptualization-hypothesis formulation objectives of research, Review of literature- what to review and procedure of review, sources of data-Primary and Secondary Cataloguing-Survey setting-approach to the problem-experimental design-pilot studies-bench mark surveys case studies-field studies – villages studies-national studies-census surveys.

### **Module III: Statistical Methods in Research**

Statistics - Meaning - Significance - Application in Economic Analysis - Data and Information - Primary and Secondary Data - Data Collection Methods - Processing of Data - Data Classification and Tabulation.

Sampling - Place of sampling in census and survey work - Requirements of a good sample - Structure of various types of sample - sampling size, Practical problems arising in the planning of a survey - Problems arising in the execution and analysis of a survey design.

### **Module IV: Research Methods and Tools of Analysis**

Content analysis, quantitative, qualitative and descriptive analyses –tools of analysis Processing and interpretation of data – hypothesis, and testing the hypothesis and forecasting-editing-classification-coding tabulation statistical interpretation and explanations-correlation and regression analysis, Application of Econometrics and models and use of statistical software for data analysis.

### **Module V: Research Report Writing**

Types of reports, report format and Principles of report writing- organization of a thesis – documentation and providing foot notes and bibliographies.

## List of Books

## **Course Title -2**

**Research and Publication Ethics (RPE)-** Course for awareness about the publication ethics and publication misconducts.

### **About the course**

**Course Code: CPE-RPE**

### **Overview**

- This course has total 6 units focusing on basics of philosophy of science and ethics, research integrity, publication ethics, Hands-on-sessions are designed to identify research misconduct and predatory publications. Indexing and citation databases, open access publications, research metrics (citations, h-index, Impact Factor, etc.) and plagiarism tools will be introduced in this course.

### **Pedagogy**

- Classroom teaching, guest lectures, group discussions and practical sessions

### **Evaluation**

- Continuous assessment will be done through tutorials, assignments, quizzes and group discussions. Weightage will be given for active participation. Final written examination will be conducted at the end of the course.

### **Syllabus in detail**

#### **THEORY**

#### **01 • PHILOSOPHY AND ETHICS (3 hrs.)**

1. Introduction to philosophy: definition, nature and scope, concept, branches
2. Ethics: definition, moral philosophy, nature of moral judgements and reactions

#### **02 • SCIENTIFIC CONDUCT (5hrs.)**

1. Ethics with respect to science and research
2. Intellectual honesty and research integrity
3. Scientific misconducts: Falsification, Fabrication and Plagiarism (FFP)
4. Redundant publications: duplicate and overlapping publications, salami slicing
5. Selective reporting and misrepresentation of data

#### **03 • PUBLICATION ETHICS (7 hrs.)**

1. Publication ethics: definition, introduction and importance
2. Best practices / standards setting initiatives and guidelines: COPE, WAME, etc.
3. Conflicts of interest
4. Publication misconduct: definition, concept, problems that lead to unethical behavior and vice versa, types
5. Violation of publication ethics, authorship and contributorship
6. Identification of publication misconduct, complaints and appeals
7. Predatory publishers and journals

## PRACTICE

### 04 • OPEN ACCESS PUBLISHING (4 hrs.)

1. Open access publications and initiatives
2. SHERPA/RoMEO online resource to check publisher copyright & self-archiving policies
3. Software tool to identify predatory publications developed by SPPU
4. Journal finder/journal suggestion tools viz. JANE, Elsevier Journal Finder, Springer Journal Suggester, etc.

### 05 • PUBLICATION MISCONDUCT (4 hrs.)

#### A. Group Discussions (2hrs.)

1. Subject specific ethical issues, FFP, authorship
2. Conflicts of interest
3. Complaints and appeals: examples and fraud from India and abroad

#### B. Software tools (2 hrs.)

Use of plagiarism software like Turnitin, Urkund and other open source software tools

### 06 • DATABASES AND RESEARCH METRICS (7 hrs.)

#### A. Databases (4 hrs.)

1. Indexing databases
2. Citation databases: Web of Science, Scopus, etc.

#### B. Research Metrics (3 hrs.)

1. Impact Factor of journal as per Journal Citation Report, SNIP, SJR, IPP, Cite Score
2. Metrics: h-index, g index, i10 index, altmetrics
